SUBJECT: CLARIFICATION OF ROULETTE WHEEL CLASSIFICATION

In an attempt to correct any misunderstanding regarding roulette wheels, this industry notice contains a clarification on the statutory classification of a roulette wheel regardless of implementation.

Current statutes provide that if a gaming related item affects the result of a wager by determining win or loss, then it is a "gaming device" and requires licensing before it can be manufactured in Nevada or distributed for use or play in Nevada or for distribution outside of Nevada. A roulette wheel has historically and is currently considered a gaming device. The automation of a roulette wheel does not change this classification.

All automated roulette wheel submissions to the Technology Division which are manufactured by a non-licensed entity will be rejected.

If you have any questions regarding this regulation please contact Technology Division Chief Travis Foley at (702) 486-2043.

Sincerely,

Mark A. Clayton
