Attn: Regulation Comments

Regarding proposed change(s) to 5.110 In house progressive schedules. The focus and intent of the draft language is clear; to lessen the burden of nonrestricted licensees as it pertains to progressive logging. Re-draft language from 5/6/2020 aims to limit the amount required to log at \$1200, or the W2G/Jackpot amount. It is unclear if nonrestricted licensees are only to record progressives with \$1,200 reset values, or progressives that have the ability or propensity to exceed \$1,200? As an example, payoff schedules with reset values of \$500 have the ability to exceed the \$1200 reference point on a regular basis.

Notwithstanding the ambiguity, the proposed changes also fail to address stand-alone progressives (not linked to another device). Most importantly, the proposed language would eliminate the statewide monitoring of progressive values of less than \$1200. The progressive values being contemplated for removal of regulation, represent approximately 55% of progressive liability in Nevada. Should the regulation be modified as suggested, the NVGCB would be surrendering the ability to monitor the majority of progressive dollars in the state, and reducing the effectiveness/cadence of the remaining dollars, which the player has a reasonable expectation to be handled appropriately and audited sufficiently. This proposed language does not place the Commission or Board in a position whereby that oversight can take place.

The proposed amendment also fails to address progressive games which are among the most popular in the industry today. As an example, many games feature secondary progressive payoff schedules with a seed/reset value of \$500.00 and stop incrementing at \$1,000. These regularly reach or get near the "cap", and when won by the player (frequently in a bonus round), result in a pay above the proposed \$1,200 value and require a W2G. They also frequently include "hidden" amounts, which are added to the reset/seed values after a progressive hit. Not monitoring these values and resets is creating a significant risk for malfeasance.

The motive for the regulation amendment is understandable; our industry is producing more games with progressives than ever before. This fact, however, does not justify the Board amending 5.110 and surrendering the audit/control intent of the original regulation. The rationale for maintaining the logs has not changed; mitigating potential fraud, and protecting the wagerer in the state of Nevada. The proposed amendment lessens this ability, and should not be amended as proposed on 5/6/2021.

Kind Regards,

Patrick Schmit
