#### **CPA MICS Compliance Checklist**

#### SLOTS General Walk-Through

### All Procedures

Licensee

Review Period

NGC Regulation 6.090(9) requires the CPA to use "criteria established by the Chair" in determining whether a Group I licensee is in compliance with the Minimum Internal Control Standards (MICS). This checklist is to be used by the CPA in determining whether the licensee's slots operation is in compliance with the Slots MICS.

Date of Inquiry	Person Interviewed	Position

Checklist Completion Notes:

- Unless otherwise instructed, examine a completed document for compliance for those questions referring to records/documentation as indicated and recalculate where appropriate. Indicate (by tickmark) whether the procedures were confirmed via examination/review of documentation, through inquiry of licensee personnel or via observation of procedures. Tickmarks used are to be defined at the bottom of each page.
- 2) All "no" answers require referencing and/or comment, and should be cited as regulation violations, unless adequate alternative procedures exist (i.e., approval of alternative procedure granted by the Board Chair, including computerized applications) or the question requires a "no" answer for acceptability. All "N/A" answers require referencing and/or comment, as to the reason the MICS is not applicable.
- 3) "(#)" refers to the Minimum Internal Control Standards for Slots, Version 9. The Slots MICS also include Notes #1 #16.

Questions	Yes	No	N/A	Comments, W/P Reference
1. Has the licensee's written system of internal control for slots been read prior to the completion of this checklist to obtain an understanding of the licensee's slots operation and does the system of internal control delineate the procedures as may be required by any of the Slots Notes #1 - #16?				
Jackpot Payouts, Slot Fills, Short Pays, Canceled Credit Payouts, Promotional Payouts, Drawings and Giveaway Programs				
<b>Note 1:</b> Promotional payouts are supplemental payouts which are not reflected in the paytable. ( <b>Note 1 before 58</b> )				
<b>Note 2:</b> The specific types of jackpots, fills, or promotional payouts utilized (i.e., manual or computerized), the type of signature utilized (i.e., handwritten or electronic), the manner of storage (e.g., printed and maintained or electronically stored), or any combination thereof, must be delineated within the slots section of the written system of internal control pursuant to Regulation 6.090. (Note 2 before 58)

Questions	Yes	No	N/A	Comments, W/P Reference
Testing of fill forms and all types of payout forms is required for Questions 2 – 3 as applicable. Select all payout and fill forms (with a maximum of 30 for payout forms and 15 for fill forms) per day for 2 days. Test days should be in non-consecutive months. Indicate test dates selected and results of testing.	105	110	1011	
<ul> <li>2. For jackpot payouts, short pays exceeding \$20, payouts of canceled credits, and slot fills, is the payout form a minimum of two-parts? (58) And does the form include the following:</li> <li>a) Date and time? (58a)</li> </ul>				
b) Slot machine number or, for SBG, the socket ID number? (58b)				
<ul> <li>c) Dollar amount of the cash payout or slot fill (both alpha and numeric), or a description of the personal property awarded? (58c)</li> <li>Note: The alpha amount is optional if another unalterable method is used for evidencing the amount of the payout or fill. (58c, Note)</li> </ul>				
<ul> <li>d) Game outcome (e.g., reel symbols or video poker winning hand) for jackpot payouts only? (58d)</li> <li>Note: Stating "multi-line payout" is adequate as the game outcome recorded on the jackpot payout form. (58d, Note)</li> </ul>				
<ul> <li>e) Signature(s) of employee(s) verifying and witnessing the payout or fill, evidencing their involvement, as required by MICS #65 and #66? (58e)</li> </ul>				
<ul><li>f) Preprinted or concurrently-printed sequential number?</li><li>(58f)</li></ul>				
g) The type of payout (e.g., jackpot, fill, canceled credits, short pay, external bonus, or external progressive)? ( <b>58g</b> )

Questions         12. If electronically signed jackpots, fills, or promotional payouts are utilized, do the procedures implemented provide at least the same level of control as those described in these MICS? (67) Verify by examination.         Note: Procedures must include at a minimum that the proper number of signatures are obtained (e.g., separate login required for each signatory requirement), a copy of the form is restricted to authorized personnel, and the completed form is unalterable. (67)	Yes	No	N/A	Comments, W/P Reference
Slot Fill CabinetsThe following questions apply when a slot fill cabinet containing funds for one hopper fill for only one specific slot machine is maintained. The slot fill cabinet is typically located next to the drop cabinet of the slot machine.Note:MICS #68 - #71 apply when fill bags are maintained in a slot fill cabinet that is used to replenish the slot machine hopper when empty. (Note before 68)				
<ul><li>13. Does a fill bag transfer from a slot fill cabinet to a slot machine's hopper require one of the following:</li></ul>				
<ul> <li>a) The involvement of two persons and the completion of a fill form when the funds are placed in the slot machine's hopper? (68) or</li> </ul>				
<ul> <li>b) The involvement of only one person if an on-line computerized system records and generates a report indicating the person's name, date, time, and purpose for each opening of the slot fill cabinet door, and a computerized slot payout system initiates and validates the fill transaction and prints the dollar amount of the fill on the computerized payout form? (68, Note)</li> </ul>				
14. Do slot fill cabinets contain funds for only one hopper fill for only one specific slot machine and is the dollar amount in the fill cabinet either capitalized in the accounting records as part of the slot machine hopper load account or is it included in the slot or cage department accountability? (69) Verify by examination.

47. For each multi-game slot machine/socket ID, are additional records maintained containing the following information:	105	110	IVA	comments, w/r Reference
<b>Note</b> : This standard applies even when only one paytable is active for slot play per multi-game slot machine/socket ID. ( <b>99g, Note</b> )				
<ul> <li>a) The initial paytables activated for play (from a library of paytables) along with each activated paytable's theoretical hold percentage for each denomination within a game as determined by the manufacturer? (99g1)</li> </ul>				
b) The simple average of the theoretical hold percentages of the paytables initially activated for play? ( <b>99g2</b> )				
<ul> <li>c) The date of each change to the activated paytables, the revised activated paytables, the theoretical hold percentage for each paytable activated for play, and the new simple average of the theoretical hold percentages of the paytables activated for play? (99g3)</li> </ul>				
<ul> <li>d) The date of each change (adding or changing) to a progressive percentage contributions to a paytable, the paytable changed, and the new theoretical hold percentage calculated? (99g4)</li> </ul>				
48. Is maintenance of the slot machine/socket ID computer data files performed by a department independent of the slot department or is maintenance of the theoretical hold percentage for each slot machine/socket ID performed by slot supervisory employees if sufficient documentation is generated and it is randomly verified by employees independent of the slot department on a monthly basis? (100) Indicate the department performing the maintenance.				
<b>Note:</b> "Slot machine/socket ID computer data files" include the theoretical hold percentage, coin-in, drop, payouts, fills, and win amounts for each slot machine/socket ID. ( <b>100, Note</b> )				
49. Are updates to the slot machine/socket ID computer data files to reflect slot machine additions, deletions, or movements and socket ID additions, deletions, or changes made at least weekly and prior to in-meter readings, generation of system (e.g., CWS, TS3 OSMS, or SBG) reports, and the slot count process? (101)

Questions	Yes	No	N/A	Comments, W/P Reference
Slot Performance – Multi-Game Slot Machines/SBG Theoretica Hold Percentages				
<ul> <li>50. Is the method utilized delineated within the slots section of the written system of internal control pursuant to Regulation 6.090<sup>4</sup> (Note 1 before 102) Indicate method used. Verify compliance with written system of internal control.</li> </ul>	,			
Note 1: The method used for calculating and/or updating the theoretical hold percentage must be consistently applied among multi-game slot machines/socket ID type IDs. (Note 2 before 102)				
Note 2: A type ID represents a grouping of slot machines with exactly the same paytable mix available for play. (Note 3 before 102)				
<ul><li>51. Does the slot analysis report include the simple average of the theoretical hold percentages of all the active paytables and is it revised to indicate the new simple average theoretical hold percentage whenever there is a change in the simple average? (102)</li></ul>				
52. Does the new simple average include all currently active paytables? Alternatively, does the new simple average include all currently active paytables <u>and</u> all currently inactive paytable which were active on a machine for at least any part of the year? If inactive paytables were included, is the simple average updated to include only active paytables within 30 days after the end of the fiscal year? ( <b>102, Note</b> ) <b>Indicate method used.</b>				
53. Does the slot analysis report include the weighted average of the theoretical hold percentages? If yes, is the TS3 OSMS utilized to complete and document the results of the following procedures (including the theoretical hold percentage reflected in the slot analysis report) for those slot machines: (103)				
<ul> <li>a) Quarterly, record the coin-in meters for each paytable and the coin-in meter for each paytable by denomination when the paytable has a different theoretical hold percentage for each denomination? (103a)</li> </ul>

Questions           b) Within 30 days after the end of the fiscal year adjust the theoretical hold percentage for the slot machine/socket ID to a weighted average based upon the ratio of coin-in for each paytable in play during the year?	Yes	No	N/A	Comments, W/P Reference
<b>Note 1:</b> For multiple slot machines with exactly the same paytable mix used throughout the year, the adjusted theoretical hold percentage may be calculated using a weighted average of the combined slot machines' percentages. ( <b>103, Note 1</b> )				
<b>Note 2:</b> For each slot machine/socket ID, if on a daily basis the weighted average theoretical hold percentage is automatically calculated based upon the ratio of coin-in by paytable, it is acceptable to use this method instead of performing an annual adjustment. ( <b>103</b> , <b>Note 2</b> )				
<ul> <li>c) Based on the above, include the new weighted average percentage for the slot machine in the fiscal year end slot analysis report? (103b)</li> </ul>				
<u>Slot Performance – Meters</u>				
<ul><li>54. Do all slot machines/socket IDs, at a minimum, contain functioning coin-in and bill-in meters (hard or soft) and, if a payout receipt system is utilized, voucher-out meters (hard or soft)? (104)</li></ul>				
55. Do all slot machines/socket IDs communicating with a cashless wagering system contain properly functioning meters as specified in TS 2.040 for metering cashless wagering transactions (e.g., voucher in or voucher out) to enable compliance with Slots MICS? (105)				
<ul> <li>56. Are bill-in electronic (soft) meter readings recorded immediately prior to or subsequent to a slot currency acceptor drop and are coin-in electronic (soft) meter readings recorded at least weekly? (106) Verify by examination.</li> </ul>				
<ul> <li>57. Regarding the meter readings mentioned in the previous question, do the following guidelines/procedures also apply:</li> <li>a) If the time between meter readings extends beyond one week, is it only to allow the reading to coincide with the end of an accounting period and is the extension for no longer than six days? (106, Note 1)</li> </ul>

Ouestions	Yes	No	N/A	Comments, W/P Reference
68. When a range of theoretical hold percentages is provided by a	103	110	14/24	
manufacturer for a single paytable, is the theoretical hold				
percentage used consistent among slot machines? (114, Note 1)				
69. For each slot machine/socket ID:				
a) Does each change to a slot machine's theoretical hold				
percentage, including adding and/or changing progressive percentage contributions, require the use of a new				
theoretical hold percentage? (115)				
b) When changes as referred to above are made, is the slot				
machine treated as a new slot machine in the slot analysis				
reports with a new theoretical hold percentage (i.e., not				
commingling various hold percentages)? (115)				
c) For multi-game slot machines, is a new slot machine				
considered to exist when the entire library of paytables				
within a slot machine is replaced with a new library of paytables (e.g., EPROM chip type is replaced with a				
different EPROM chip type)? ( <b>115, Note 1</b> )				
d) Is a new slot machine number not assigned when a new par				
percentage is used in the slot analysis reports that is the				
result of a correction of an inaccurate par percentage?				
(115, Note 2)				
e) For SSG, is a new slot machine number not assigned when				
paytables with metered activity remain stored on the slot				
machine? (115, Note 3)				
70. Monthly, is a list created and maintained of all slot				
machines/socket IDs, which includes at a minimum:				
a) Slot machine/socket ID number? (116a)				
b) Type ID? (116b)				
c) Game type (e.g., single game, multi-game, or SBG)? (116c)				
d) For each slot machine/socket ID:				
1) If the machine is not permanently connected to the TS3				
OSMS and/or CWS? (116d1)

Licensee \_\_\_\_\_ Review Period \_\_\_\_\_

Questions	Yes	No	N/A	Comments, W/P Reference
<u>Computerized Player Tracking, Promotional Accounts,</u> Promotion and External Bonusing Systems	105	110		Comments, w/r Reference
<b>Note 1:</b> Compliance with MICS #146 - #154 is required for all computerized slot player tracking, promotional accounts, and promotion and external bonusing systems. These systems include those that communicate with slot machines as to the amount of electronic cashable/non-cashable credits added to the credit meter.				
• A "promotional account" is an electronic ledger used in a cashless wagering system (e.g., player tracking account) to record transactions involving a patron that are not otherwise recorded in a wagering account.				
• A "promotion and external bonusing" system is an independent computerized system that communicates external bonus payouts to a slot machine. The computerized system will instruct the slot machine as to the amount of electronic cashable or electronic non-cashable credits to be placed on the credit meter of the slot machine. The amount placed on the credit meter of the slot machine (from the external bonusing system) may or may not result from a wager made by a patron. (Note 1 before 146)				
<b>Note 2:</b> As used in these MICS, the term "point" or "points" is a generic term and refers to a representative of value awarded to a patron based upon specific criterion established by the licensee. Commonly, points are earned by patrons placing wagers or purchasing room, food, beverage or entertainment admissions. Patron accounts in a player tracking system are used to track points earned/awarded to patrons. ( <b>Note 2 before 146</b> )				
87. Are the addition/deletion of points to player tracking accounts other than through an automated process related to actual slot play sufficiently documented (including substantiation of reasons for the increases), are they authorized/performed by supervisory personnel of the player tracking, promotions, or slot department and is the supervisory authorization documented and randomly verified by accounting/audit personnel on a quarterly basis? ( <b>146</b> )				
<b>Note:</b> MICS #146 does not apply to the deletion of points related to inactive or closed accounts through an automated process. ( <b>146</b> , <b>Note</b> )

105	Questions	Yes	No	N/A	Comments, W/P Reference
	For licensees that utilize a computerized system that monitors				
	slot fill cabinet door openings and a slot computerized system				
	that initiates a fill form, and as such, only one person is				
	involved in transferring funds from the slot fill cabinet to the				
	slot machine hopper, are the following procedures performed				
	daily:				
	a) Is the total dollar amount of slot machine fill forms				
	reconciled to the total dollar amount of transfers recorded				
	on the cage/booth accountability documentation for funds				
	transferred from the cage/booth to the slot fill cabinets?				
	(186a)				
	b) Are the appropriate system reports reviewed to confirm that				
	two individuals were involved in placing the funds into the				
	slot fill cabinet as a result of a slot fill? (186b)				
126	Monthly, do accounting/audit personnel review all contest,				
	tournament, promotional payout, drawing, and giveaway				
	program documentation to determine proper accounting				
	treatment and proper slot gross revenue computation? (187)				
	realment and proper siot gross revenue computation? (187)				
137.	For all contests, tournaments, promotional payouts (including				
	payouts resulting from computerized player tracking activity),				
	drawings, and giveaway programs is the following				
	documentation maintained:				
	a) Copies of the information provided to the patrons				
	describing the contests, tournaments, promotional payouts,				
	drawings and giveaway programs (i.e., brochures, fliers)?				
	(188a)				
	b) Effective dates? (188b)				
	c) Accounting treatment, including general ledger accounts, if				
	applicable? (188c)				
	d) For tournaments and contests, the name of the				
	organizations (or persons) registered pursuant to NRS				
	463.169 that conducted the contest/tournament on behalf				
	of, or in conjunction with the licensee, if any? ( <b>188d</b> )

	Questions	Yes	No	N/A	Comments, W/P Reference
	e) The extent of responsibilities (including MICS compliance responsibilities) each organization and the licensee had in the contest/tournament (e.g., ABC nonprofit is to receive 100% of the entry fees and provide noncash prizes for the winners with the licensee collecting entry fees, operating the tournament and distributing prizes to winners)? (188d)	1 es	No	1N/A	Comments, w/r Kelerence
	Monthly, do accounting/audit personnel perform procedures (must include a review of documents, interviews of employees on the property, and on premise observations of the licensed establishment) to ensure that contests, tournaments, promotional payouts, drawings, and giveaway programs are conducted in accordance with the conditions provided to the patrons and are the results of the review, interviews, and observations documented and maintained? ( <b>189</b> ) <b>Note 1:</b> For purposes of this standard, licensees are required to examine any contests, tournaments, promotional payouts, drawings, and giveaway programs that occurred any time during the last month, not just any such events that occurred at the time of their examination. <b>Note 2:</b> Interviews and observations are still required to be performed even if no such promotions are generally offered as to ensure all promotions are captured, properly accounted for,				
139.	and conducted in accordance with the conditions provided to patrons. ( <b>189</b> , <b>Note</b> ) For computerized key security systems controlling access to the slot drop and count keys, do accounting/audit personnel,				
	independent of the system administrator, perform the following procedures:				
	a) Daily, is the report generated by the computerized key security system that indicates the transactions performed by the individual(s) that adds, deletes, and changes user's access within the system (i.e., the system administrator) reviewed to determine whether the transactions completed by the system administrator provide an adequate control over the access to the slot drop and count keys and to determine whether any slot drop and count key(s) removed or returned to the key cabinet by the system administrator was properly authorized? ( <b>190a</b> )
