

## All in Stud

All in Stud is played using a standard 52-card deck of cards. To begin, players must make a mandatory Ante wager to receive three cards which are combined with two community cards as Raise wagers are placed. Players use five cards to achieve a poker hand that triggers a winning event against a payable. Additionally, players may place any optional side wagers made available.

Five-Card Progressive is an optional side bet. Players are paid against a payable if they are able to create a qualifying hand that uses the player's three cards and the two community cards to match a winning triggering event.
