

Baccarat Jackpot Edition offers optional side wagers to the standard game of Baccarat. The game is played using eight standard decks of 52 cards and is available on Commission and Commission Free games. A personal K9 hand printed on each player seat may award an additional bonus payout, if their exact K9 appears on the Player or Banker hand

How to Play

1. The player must make a standard Baccarat wager in order to make a Jackpot Ante wager.
2. The Jackpot Ante wager must be less than or equal to the Baccarat wager.
3. Baccarat is dealt according to standard rules and procedures. Note: For commission free baccarat games, the player will push with a three-card seven on the Banker's Hand. In standard baccarat games, the player will pay commission on all winning Banker hands.
4. If the player makes a Jackpot Ante wager and wins their Baccarat wager, the Jackpot Ante wins even money.
5. If the player loses or pushes their Baccarat wager, the Jackpot Ante loses.
6. In addition to the payout, if the player wins their Baccarat wager, the player can win one of four bonus payouts for the following criteria based on the first two cards dealt to the Banker or Player hand. See posted payable.

Jackpot Ante Paytable		
Player or Banker Hand	Paytable1	Paytable 2

Personal King-Nine vs Any King-Nine	250	500
Personal King-Nine vs Any Natural 8 or 9	100	100

7. If the player has a winning bonus payout and wins their Baccarat wager, the Jackpot Ante will get paid the bonus payout, get paid the even money payout for winning their Baccarat hand, and the player will retain their original Jackpot Ante Wager.
 - a) If the player has a winning bonus payout and their Baccarat wager is a push, the Jackpot Ante will get paid the bonus payout but they will lose the Jackpot Ante wager.
 - b) If the player does not have a winning bonus payout but wins their Baccarat wager, the Jackpot Ante will get paid even money and the player will retain their Jackpot Ante wager.
8. If the main Baccarat game is set up as commission free then the player may also place an optional Banker 7 Bonus wager. The Banker 7 Bonus wager will win if the Banker hand finishes the round with three cards totaling seven points, and is otherwise lost. See posted payable.
