

# Baccarat Super Six

## Rules of Play

Baccarat Super 6 is a side bet for use in Baccarat.

The Baccarat Super 6 is a side bet that pays in the event of a Banker win with six points. Wins are configurable with a range of 13 to 1 to 17 to 1.

### **Making a Side Bet**

Before the cards are dealt, Players who choose to participate in the optional **Baccarat Super Six** side wager must place at least one baccarat wager in addition to his/her side bet wager, per player position, into the respective bet spots. The side bet must be wagered in increments of \$5, up to \$100 maximum per Player position. No side wagers may be made, increased, or withdrawn after the dealer has begun the dealing of the cards.

Once all the bets are made, the cards are dealt based on house baccarat procedures. When the round concludes, for each position, the dealer will first reconcile the baccarat wager and then settle the side wager.

### **Configurations of the Side Bet**

Qualifying winning hand is defined as the winning Banker total of six. The Baccarat Super Six bet is paid based on one of the included Pay Tables on a winning Banker total of six.

The Baccarat Super Six will lose on any of the following scenarios:

- The Banker hand wins with any other point total from 1 through 9, excluding 6;
- The Banker hand loses;
- The Banker hand and the Player hand tie.

Note: Licensee discretion to make standard Baccarat wager optional.

### **Exhibit ES.1: Pay Tables<sup>1</sup>**

Pay Table Variants are included as **Appendix A**

---

Disputes or Misdeal

Any misdeals, shuffler malfunction, or inability to verify game play voids all side bets.

## Super Six Baccarat – Appendix A
