

Bet The Set 21

Rules of Play

Bet The Set 21 is a variation to the standard game of Blackjack. The game is played with any number of standard 52 card decks. Bet The Set 21 is an optional side wager that players may receive on their first two cards a pair of the same index or a pair of the same index and being of the same suit.

If the cards are the same index (i.e. king and king) the player is paid 15 to 1 (single deck) or 10 to 1 (multiple deck). If the cards are the same index and the same suit (multiple deck only) the player receives a payoff of 15, 20, or 25 to 1 (dependent on payout option chosen). If the player's first two cards are not the same index, the Bet The Set 21 side wager is lost.
