

Big Money Blackjack

RULES OF PLAY

Big Money Blackjack is an optional side bet to the game of Blackjack.

- To begin each round, players must make the standard blackjack wager before the hand begins. Players may also place an optional Big Money Blackjack side bet on the player and/or the dealer side bet area.
- A player that makes a Big Money Blackjack wager on the Dealer is betting the dealer will receive a blackjack.
- A player that makes a Big Money Blackjack wager on the Player is betting the player will receive a blackjack.
- Both bets can be made simultaneously.
- When the Big Money Blackjack side wager wins, each player and/or the dealer will activate a keno type ball blower that contains 80 numbered balls and draw one ball for each side bet and/or draw one (1) ball for all side bets. The players' will either be awarded a multiplier or a non-cash prize depending on the configuration of the ball.
- Big Money Blackjack paytables can be configured three (3) different ways:
 - Multiplier only: the players' side wager(s) will be multiplied by the number on the ball chosen.
 - Non-cash prize award with multipliers: If the ball chosen has a "Prize" or "Comp" label (i.e. room, show, VIP, Golf, Spa, and so forth) and the players' side bet is at the maximum level, then the player will win the advertised/corresponding non-cash prize. If the casino elects to use the words "Comp 1", "Comp 2", "Comp 3" (and so on) there will be a list at the table detailing what such comps include. If any other ball is selected, the players' side wager(s) will then be multiplied by the number on the ball chosen.
 - Non-cash prize top award only if the player is at the maximum bet: If the ball chosen has the "PRIZE/COMP or NUMBER" label and the player' side bet is at the maximum level, then the player will win the advertised/corresponding non-cash prize or comp. If the players' side bet is less maximum bet or if any other ball is selected, the players' side wager(s) will then be multiplied by the number on the ball chosen.
- If the player or the dealer does not receive a blackjack, the Big Money Blackjack side wager is lost.
