INTRODUCTION

Blackjack Match Progressive is an optional side bet for Blackjack games with one, two, four, six or eight decks with up to seven seats. All house rules still apply to the standard game of Blackjack. The side wager is an exciting progressive bonus bet that allows players the opportunity to win cash with player/dealer Blackjack(s) or other qualifying hands. *Note: (Player doesn't need to win the hand to qualify for the progressive payout)*

RULES OF PLAY

- 1) At the beginning of each game, the player must place the base Blackjack wager and may optionally place the Blackjack Match Progressive-side wager.
- 2) After all wagers are placed, each player is dealt two cards while the dealer receives cards according to the underlying Blackjack rules.
- 3) If the player's two cards along with the dealer's two cards create a qualifying hand, the progressive side wager will be awarded (see payable below). Otherwise, the Blackjack Match Progressive side wager is lost
