

Bonus Spin on Blackjack Games – Dealing Procedures

Bonus Spin is an exciting side bet that allows players the opportunity to win cash or prizes by spinning a virtual wheel. Bonus Spin can be added to Blackjack and Spanish 21 variant games.

To begin play:

1. Players must place a Blackjack wager and an optional Bonus Spin side bet.
2. In order to win on the Bonus Spin side bet:
 - a. Players must have an Ace in their first two cards (\$1 or \$5 paytables only); or
 - b. Players must have a blackjack in their first two cards (not after splits).
3. The Dealer will deal all Players and the Dealer's first two cards of the blackjack game.
4. After the initial two cards are dealt, the Dealer will stop to determine any Bonus Spin winners:
 - a. If a Player has an Ace in their first two cards, the Dealer will pay them even money for their Bonus Spin wager (\$1 or \$5 paytables only); or
 - b. If a Player has a blackjack in their first two cards (not after splits), the Dealer will come back to that Player at the end of the round and the Player will spin the Bonus Spin wheel. The Dealer will pay the Player the denomination/prize won on the wheel.
 - c. If there are no Bonus Spin winners, then the game continues according to house blackjack rules.
5. If no Bonus Spin side bets are made, then the game plays as regular blackjack and the dealer does not have to use the interface.

Options for Top Prizes in Bonus Spin for Blackjack games:

Casino operators can choose from any approved payable and have a Top Prize of:

- Incrementing progressive
- Fixed dollar amount
- Prize – i.e., car, show tickets, etc.
