

## Buddha's Bonus Rules of Play

### ***Buddha's Bonus Description***

Buddha's Bonus is a pair of optional wagers to accompany commission or no-commission Baccarat games using 4, 6, or 8 standard 52-card decks. During initial wagering, before any cards are dealt, the player may optionally place a Buddha's Bonus wager on the Player hand, and/or on the Banker hand. The game is then dealt and played as normal. The Buddha's Bonus wagers are resolved based on the final Player and Banker hands.

The Buddha's Bonus wagers may be configured as "3-Card" wagers or as "All Hand" wagers, with associated changes to qualifying events and their pays. The wager wins if both hands are naturals (2-card 8 or 9), or if all the following conditions are met:

#### 3-Card Version

- The wagered hand wins by at least 2 points; **and**
- The wagered hand has a final total of 5, 6, or 7; **and**
- The wagered hand has 3 cards.

#### All Hands Version

- The wagered hand wins by at least 2 points; **and**
- The wagered hand has a final total of 5, 6, or 7.

Otherwise, the wager loses.
