

Introduction:

Dai Bacc is an exciting new Baccarat game. There is no commission and Banker pushes on winning three-card 7s. There are three optional side bets offered including an Ox 6 Bonus that pays 40 to 1 when the Player wins with a three-card 6, a Tiger 7 Bonus that pays 40 to 1 when the Banker wins with a three-card 7 and a Kill bet that pays 30 to 1 when the Player gets a three-card 6 and loses or ties; or, when the Banker gets a three-card 7 and loses or ties.

Dealing Procedures and Round of Play:

1. Each player will place their bets on either Player or Banker and additionally place a bet on any or all Bonus Bets. Player or Banker bets may or may not be mandatory, see house rules.
2. Once all bets are placed, the house dealer deals all cards following traditional Baccarat rules and procedures.
3. The hand is then completed following standard Baccarat drawing rules for Player and Banker.
4. After the Baccarat hand is finished, each bet is resolved.
5. Winning Player or Banker bets are paid even money. Losing bets are taken.
6. No commission is taken on winning Banker bets. If the Banker wins with a three-card draw to 7 then all Banker bets push.
7. Tiger 7 Bonus Bet is paid 40 to 1 when the Banker wins with a three-card 7.
8. Ox 6 Bonus Bet is paid 40 to 1 when the Player wins with a three-card 6.
9. The Kill Bet is paid 30 to 1 in two different scenarios:
 - a. When the Banker loses or ties with a three-card 7
 - b. When the Player loses or ties with a three-card 6
