'Dragon 7' means a winning Banker 3-Card 7	

4) To begin each round, players make their standard Baccarat wager(s). They may also make the ***Dragon7***, ***Panda 8*** and progressive wagers. Players must place the progressive wagers on the sensor in front of their betting position. The sensor will light up.

5) Once all players place their bets, the dealer will press "START GAME" on the keypad. The sensors will then light up, indicating a progressive wager. The dealer will then remove all progressive bets from the table.

6) The dealer then follows house procedures for dealing Baccarat.

7) The dealer reconciles the standard baccarat wagers, any bonus wagers and progressive wagers at the same time. Follow the procedure in the next section for reconciling percentage pays from the progressive meter.

   - It is left to the casino's discretion as to whether or not the player may make the ***Dragon7*** and/or ***Panda 8*** and/or the progressive wagers without playing the base game of baccarat.

8) Progressive winners:
   a) The percentage pays are paid from the progressive jackpot shown on the progressive meter. Other hands are paid from the tray or from the meter at the casino's requirements.
   b) The percentage prize pay amount shown on the meter is split among all players, at that table, participating in the progressive wager that round.
   c) When a player has a progressive winner, the dealer, using the dealer display will press the appropriate hand button that corresponds to the player with the winning progressive hand. (If the hand button is pressed by accident, pressing it again will turn it off.)
   d) The dealer shall then contact a supervisor.
   e) Once the casino verifies the progressive win, the supervisor will press the confirm button. To complete the action, a Supervisor or Executive card (depending on jackpot level) swipe is required. This records the win onto the Game Manager computer and adjusts the meter appropriately for the prize won. House procedures are then followed for paying the prize. (Reviewing the monitor connected to the Game Manager will show the prize amount to be paid, and pressing the "money bag" icon will print a win page, which can be used to help record the payout for accounting.)
   f) Once the dealer has reconciled all action, they press "END GAME." This resets the system to begin the next hand.
   g) Once the Supervisor or Executive card (depending on jackpot level) is swiped the prize is logged into Game Manager. If the progressive pay needs to be backed out at this point, the award will need to be manually backed out using the Game Manager manual adjustment feature.
