

# EZ Bust

## Rules of Play

EZ Bust is a variation to the standard game of Blackjack. The game is played with standard 52 card decks. To begin, players make their original blackjack wager and may place an optional EZ Bust side wager equal to the amount of their blackjack wager, when the dealer's up card is 2, 3, 4, 5, or 6.

The "EZ Bust" wager allows the player to reject a draw card for the player's hand. The side bet wins even money if the dealer busts. The side bet loses if the dealer does not bust. If all players' hands bust and one or more "EZ Bust" wagers remain in action, the dealer must play out the hand in order to resolve the "EZ Bust" wager(s). If the dealer busts, all "EZ Bust" wagers win even money. If the dealer does not bust, all "EZ Bust" wagers lose.
