

## **RULES OF PLAY**

1. Players must make a blackjack wager in order to participate in the Fortune Blackjack bonus wager.
2. Casinos set the minimum and maximum bet amounts.
3. Players make the Fortune Blackjack bonus wager by betting in the marked area.
4. The dealer follows house procedures for dealing standard blackjack.
5. Fortune Blackjack wager payouts are based on a player's two starting cards and the dealer's up card only. Payouts start with a combined total of 19, 20 or 21. Higher payouts are based on the cards being of a particular value or suited. See payable for odds.
6. Once each player and dealer have their first two starting cards the dealer will settle all Fortune Bonus wagers in one of two ways.
  - a. When the cards are dealt face up, the Fortune Blackjack wagers will be settled immediately after participating players receive their first two (2) cards and the dealer's up card is exposed. Winning Fortune Blackjack bets will be paid and losing bets will be picked up in order of placement from the dealer's right to left. Then, standard blackjack play will resume.
  - b. When the cards are dealt face down, the Fortune Blackjack wagers will be settled on a hand to hand basis, as the dealer goes from left to right before asking for hit/stand determinations.
