

“FREE FLOP” HOLD’EM

WHERE BETTING DOESN’T BEGIN UNTIL **AFTER** THE FLOP!!

1. Free Flop Hold’em is played exactly the same as Texas Hold’em, the only exception being that there is no pre-flop betting round.
2. There is a button that moves clockwise around the table as normal after every hand.
3. There is a small and big blind as normal.
4. Deal begins with the small blind first, and moves clockwise around the table with the player on the button receiving cards last.
5. Dealer deals out the flop (first 3 community cards). Action starts with the first player left of the big blind. He/she may call/raise/fold, and the action moves clockwise as normal. When action returns to the blind/s, they have an option to call, check, or raise.
6. Dealer deals out the turn card (4th community card). Action starts with the first player left of the button. He/she may check or bet, and the action moves clockwise as normal.
7. Dealer deals out the river card (5th community card). Action starts with the first player left of the button. He/she may check or bet, and the action moves clockwise as normal.
8. A bet and four raises are allowed.
9. All other “Texas” Hold’em rules apply.
