

## Rules of Play

### Free Money Blackjack Rules of Play

Free Money Blackjack is a variation of the standard game of Blackjack. The rules are given below:

▪ The following standard Blackjack rules apply by default:

- The game is played with six (6) decks.
- Blackjack pays 3:2. Alternatively, Blackjack may pay 6:5.
- Insurance is paid 2 to 1.
- The dealer hits on soft 17.
- The dealer peeks for Blackjack when their up-card is an ace or 10-point card.
- Splitting is permitted up to three (3) times to a maximum total of four (4) hands.
- Doubling is permitted on any 2-card totals.
- Doubling after splitting is permitted.
- Re-splitting aces is permitted.
- Hitting split aces is prohibited.
- Late surrender is prohibited.

The following custom rules define Free Money Blackjack:

Dealer busts with a total of 22, result in a push if the Player has a winning total.

A Player may “free double” on 2-card hard totals of nine (9), ten (10) and eleven (11). Regular doubles are permitted on all other 2-card hands. With a free double, the Player’s original wager is matched with a free Lammer, and the Player receives one (1) additional card. At the end of play:

- If the Dealer wins, the Player loses their original wager.
- If the Player and Dealer tie, the Player gets back their original wager only.
- If the Player wins, the Player gets back their original wager plus twice that wager.

A Player may “free split” on all pairs, except 10 value cards. Regular splits are permitted on all hands with two 10 value cards; this split would be covered by the Player. In this case, the Player’s hand is split into two (2) 1-card hands. The Player’s original wager is placed with the first hand and a free Lammer is placed with the second hand. The Player plays out each hand one at a time and may free double or free split on each of the hands. At the end of play:

- On Player winning hands, free Lammers are replaced with real chips equal to the original wager.
- On Dealer winning hands, the Dealer collects the free Lammers.

**Dealer 22 Bonus**

Dealer 22 Bonus is an optional side bet for the game of Free Money Blackjack. The wager pays if the Dealer busts with a total of 22. The payable choices for the Dealer 22 Bonus are as follows:
