

# HARD WAY ACTION CRAPS

## Rules of Play

Hard Way Action Craps offers players the option to make a 'Hard Way Odds Bet.' The Hard Way Odds Bet is available whenever a point number of 4, 6, 8, or 10 has been rolled and the player has a Pass Line or Come Line wager.

The player is paid according to the following paytables:

<b>Point</b>	<b>Point Made The Hard Way</b>	<b>Point Made Any Other Way</b>
4 or 10	4 to 1	1 to 1
6 or 8	2 to 1	1 to 1

As an alternative, Hard Way Action Craps may be played as follows, at the operator's discretion:

1. Player makes the Hard Way Odds Bet instead of the conventional Odds bet.
2. In conjunction with the conventional Odds bet, allowing the player to wager on either the Hard Way Odds Bet or the conventional Odds bet.
3. In conjunction with the conventional Odds bet, allowing the player to wager on both the Hard Way Odds Bet and the conventional Odds bet.

All other bets remain unchanged from the standard game of Craps.

Note: Hard Way means the dice combinations of 2,2; 3,3; 4,4; and 5,5 for the numbers 4, 6, 8 and 10.
