

## Rules and Procedures

### **INTRODUCTION**

Jackpot Hold'Em is an exciting poker derivative dealt like Texas Hold'em where players place bets as their hand is revealed. All players and dealer will use their two hole cards combined with the 5 community cards to make their best 5 card poker hand.

### **To PLAY**

1. Players must make an Ante bet and an X-TRA Bonus wager of equal amounts. The player may also make an optional Player Bonus bet prior to any cards being dealt.
2. Each player, including the dealer, will be dealt two cards face down.
3. The dealer will then deal the five card community board face down.
4. The dealer will then proceed to reveal the first community card.
5. The player must make one of the following decisions:
  - a. Check the hand; or
  - b. Bet 3x the Ante on the Play Bet.
6. Two additional community cards will be revealed (remainder of the 3 card flop).
7. For players who checked the first decision, they must make one of the following decisions:
  - a. Check the hand; or
  - b. Bet 2x the Ante on the Play Bet.
8. The final two community cards will be dealt (Turn/River).
9. For players who have checked both previous decisions, they must make one of the following decisions:
  - a. Fold. A player that folds their hand will lose the Ante Bet and the X-TRA Bonus Bet; or
  - b. Bet 1x the Ante on the Play Bet.

The dealer will then reveal his two hole cards and combine them with the five community cards to make his best 5 card poker hand and compare his hand against each player's hand.

### **DEALER QUALIFYING**

The dealer must have a pair or better to qualify.

In the event the dealer does not hold a qualifying hand, the Ante Bet will receive no action and be pushed back to the player.

## Rules and Procedures

### WINNING AND LOSING HANDS

The ANTE, X-TRA Bonus, Play, and optional Player Bonus wagers will be resolved as follows:

- a. The Play bet wins and is paid 1 to 1 if the player's hand ranks higher than the dealer's hand. It shall lose and be collected if the dealer's hand ranks higher than the player's hand. It shall push if the hands are of equal rank. If the dealer hand qualifies, the Ante wager is resolved the same way as the Play bet.
- b. The X-TRA Bonus wager wins and is paid according to the posted pay table if the player's hand is higher than the dealer's hand. If the player's hand is higher than that of the dealer's hand, but the player's hand is not a straight or higher, the X-TRA Bonus wager shall push. It shall lose and be collected by the dealer if the dealer's hand is higher than that of the player. It shall push if the dealer and the player have equal ranking hands.
- c. The optional Player Bonus wager wins if the player's hand contains a three-of-a-kind or better, according to the posted pay table, regardless of the X-TRA Bonus and Play results, and regardless of whether the player has folded their hand.
