

Keno High-Low Split

Rules of Play

Keno High-Low Split is a variation to the standard game of Keno. The game allows players to wager on the location of the 20 numbers selected rather than the precise numbers that will appear. The Low split is the top half of the Keno board that includes numbers 1 through 40. The High split is the lower half of the Keno board that includes numbers 41 through 80. The wagers selected will be for an individual game or games as decided upon by the player. The following wagers are offered:
