

**Babe Ruth's Homerun Blackjack** is regular blackjack with an optional side bet. It can be dealt from one to eight decks of cards and played by up to seven players.

In addition to their main blackjack bet, players can place a wager in a "homerun" betting circle that makes them eligible to receive homerun bonus awards. If their hand matches any of the below winning combinations they will be paid as follows:

**Pay Tables**

Player Hand Type	Table A	Table B	Table C
(A) 7-4-10 suited or 4-7-10 suited on the first 3 cards	1000	1000	1000
(B) 7-4-X suited or 4-7-X suited on the first 3 cards, where X is any face card	400	400	400
(C) 7-4-10 or 4-7-10 on the first 3 cards	100	100	100
(D) 7-4-X or 4-7-X on the first 3 cards, where X is any face card	25	25	25
(E) 7 and 4 on the first 2 cards in any order	10	10	10
(F) 7 and any 10-value card on the first 2 cards in any order	5	5	6
(G) 4 and any 10-value card on the first 2 cards in any order	4	5	5

All payoff odds are "to 1."

If the dealer's face-up card is a 10 or Ace, the dealer must check his hole card for a blackjack. Players will lose their side bets immediately if the dealer has a blackjack.

With a winning combination of (E), (F) or (G), the player will win the side bet regardless of the outcome of the main blackjack bet (except for a dealer blackjack).
