## Game Rules

Lucky Max Baccarat is an optional side bet for baccarat that is played using six or eight standard decks of 52 cards.

- 1) Players place the main bets of Player, Banker and / or Tie in Baccarat, mini Baccarat or any Baccarat variants.
- 2) Players can optionally bet on BankerMax, PlayerMax and / or High TieMax and/or Low TieMax.

Note: The High TieMax is [9,8,7,6] or [9,8,7,6,5] and the Low TieMax is [5,4,3,2,1,0] or [4,3,2,1,0] depending on the payout tables.

- 3) Dealer proceeds to deal the standard game of Baccarat or mini-Baccarat according to house rules.
- 4) After reconciling standard wagers, the dealer will reconcile the Lucky Max Baccarat wagers. Dealer identifies the "Max" (highest point card) in the winning hand or over all cards in tie hands. The payout rules for Max bets are:
  - If the Player wins the main game, the PlayerMax side bets are paid odds according to the "Max" value. (All BankerMax and TieMax bets lose.)
  - If the Banker wins the main game, the BankerMax side bets are paid odds according to the "Max" value. (All PlayerMax and TieMax bets lose.)
  - On a tie with a "Max" score over all cards in the hand of 6 (or 5) points or more, the High TieMax bet pays according to its pay table. (All BankerMax, PlayerMax and Low TieMax bets lose.)
  - On a tie with a "Max" score over all cards in the hand of 5 (or 4) points or less, the Low TieMax pays odds according to its pay table. (All BankerMax, PlayerMax and High TieMax bets lose.)
