

## Rules and Procedures

### **INTRODUCTION**

**Lucky Snake Bonus** is an optional wager that may accompany standard Baccarat games or Baccarat variants using 6 or 8 standard 52-card decks.

### **RULES OF PLAY**

1. To begin, players will place their normal baccarat wagers along with an optional Lucky Snake Bonus wager before any cards have been dealt.
  - a. **Important Note:** The operator may require the player to place a standard player or banker wager to be eligible to place a player or banker "Lucky Snake Bonus" wager. The operator may also allow a player to place a player or banker "Lucky Snake Bonus" wager in lieu of the standard player or banker wager.
2. Once all the wagers have been placed and booked by the dealer, the game of Baccarat continues per house rules with the Player and Banker hands first receiving 2 cards, each potentially receiving a third card according to standard Baccarat dealing rules.
3. If the wagered hand is a natural winner, or if the wagered hand wins by at least 4 points over the other hand, the Lucky Snake Bonus wager wins and is paid according to the posted payable.
4. If the game results in a natural tie, the wager pushes. Otherwise, the wager loses.

## Rules and Procedures

### PAYTABLES

Pays		
	Paytable 1	Paytable 2
