

Over and Under Seven

Rules of Play

Over and Under Seven is a side wager for the standard game of Craps. To begin, players place their bet on the 7, Under 7 or Over 7 area of the layout.

The Under 7 wins if the shooter rolls a 2, 3, 4, 5, or 6, and the player is paid even money. If the shooter rolls a 7 or more, the Under 7 bet is lost. The Over 7 wins if the shooter rolls an 8, 9, 10, 11, or 12, and the player is paid even money. If the shooter rolls 7 or less, the Over 7 bet is lost. The 7 wins if the shooter rolls a 7 and the player is paid 4 to 1; any other number rolled and the 7 bet is lost.
