

Rules & Dealing Procedure

GAME OVERVIEW

Pai Gow Stax is a side wager for Pai Gow Poker games that deal seven cards to each player and utilize a standard 53 card deck, as well as other poker derivatives that use the same standard 53 card deck with the same use of the Joker. It may be configured as an optional or mandatory wager at the discretion of the operator.

Each player that placed the Pai Gow Stax wager is paid according to a payable based on the best hand possible among all the player's cards. The Joker is considered semi wild. If a Joker is present in the player's hand it can only be used as an Ace or to complete a Straight, Flush, or Straight Flush.

STAX PROGRESSIVE RULES

Players must place their regular wagers for the game and an **STAX PROGRESSIVE BONUS** wager that may be configured as an optional or mandatory wager at the discretion of the operator. A STAX progressive bet is required each hand in order for players for any STAX related jackpots. The wager must be placed on the sensor in front of the betting spot for each player that wants to participate in the progressive.

The dealer will deal the base game as per the dealing procedures. During the initial game, the dealer will determine if any triggering **STAX PROGRESSIVE BONUS** hand. If a player has a triggering hand, the dealer will resolve and pay the player the denomination/prize won. ***See posted payable.*** If there are no triggering hands for **STAX**, then the game continues according to the house rules of the game.
