

Player's Jackpot

Rules of Play

Player's Jackpot is a variation of the standard game of Bonus 6 Stud Poker. The game is an optional side wager played using a single deck of 52 cards and one additional Joker.

Players make the standard Bonus 6 Stud Poker ante wager and the Player's Jackpot side wager. This wager is placed in a side pool/pot.

The game of Bonus 6 Stud Poker is dealt per standard rules. The player who is dealt the Joker wins the pool/pot. If the Joker is not dealt, the pool/pot would roll over to the next game.

If the Joker is dealt as the community card, the dealer places the Joker to the side and then deals a replacement community card.

Casinos will have the option to collect a 5% vigorish out of the pot each time it is won.

The standard game of Bonus 6 Stud Poker is then played to completion.
