## Rules of Play

Repeater Bets Plus is a set of bets that involve making wagers on the sequential outcomes of dice rolls. Before the dice are rolled, players may make one or more of the following wagers (dealers will book all Repeater Bets).

### Repeater Bets Wagers

- Repeating "2" 2x
- Repeating "12" 2x
- Repeating "3" 3x
- Repeating "11" 3x
- Repeating "4" 4x
- Repeating "10" 4x
- Repeating "5" 5x
- Repeating "9" 5x
- Repeating "6" 6x
- Repeating "8" 6x
- Repeating "2, 3, 11, or 12" 7x

### Plus Wagers

- Uptown
- Downtown
- Citywide
- Even
- Odd
- Horn
- 2 or 12 before a "7"
- 3 or 11 before a "7"

The dice are rolled sequentially until a sum of seven is rolled. The value of each roll is recorded and tallied. If a winning condition for a wager is met on a roll, that wager is resolved against the posted paytables. Optionally, if the casino offers a surrender option, players may choose to resolve a repeating wager early (surrender), if at least half of the winning condition has been met, receiving a lesser pay based on the current posted payable.

All other wagers remain active, and the dice are rolled again. New wagers may be placed prior to any roll if the event being wagered has not yet been marked. When a seven is rolled, all wagers which have not already been resolved are lost, and a new round of wagering begins.

Note: If the player makes a successful Repeater Bets Plus wager, and a pay for the dealer envy is listed, the dealer receives the envy amount in addition to the amount the player is paid.
