

**Richer Spin "The Cone" – Version 2 Side Bet
Rules of Play**

1. The dealer calls for the standard roulette and The Cone bets.
2. The Cone bets are place on a second set of the 38 numbers (1 through 36 plus 0 and 00) printed on the layout in a "racetrack" pattern. After all The Cone bets are placed the dealer announces "no more side bets". The players can continue to place bets on the roulette numbers until the dealer announces "no more bets".
3. The cone is configured so that it is free to spin independently, i. e. the inner cylinder. Equally space on its circumference is an Icon configuration (listed below).

Configuration	Roulette	Number of gold icons	Number of Silver Icons
7)	Double Zero	1	9

4. The dealer places markers on the winning roulette number and the winning The Cone number. Then by sweeping the layout, from outside to inside, takes the losing roulette and The Cone bets
5. The player wins when the ball lands in a pocket that is adjacent to an icon and that number matches the number bet on The Cone racetrack.
