

Richer Spin The Cone – Version 5

Item 4. Rules of Play

When placing the Traditional Roulette Cone Bonus bet the player can bet the Purple or Blue Icon or both. The betting areas for each are on the outside of the layout. Equally spaced on the cone are four Bonus icons of each color.

The outer cylinder features pockets with the numbers, 1 through 36 and, depending on the casino, a single 0, 0 and 00, or 0, 00, and 000. The outer cylinder continually spins in a counter-clockwise direction. The cone is designed to spin independently. Once all the bets have been made the dealer nudges the cone in the clockwise direction. As it loses momentum it locks together with the outer cylinder. The winning outcome is decided when the pocket containing the ball lines up with either a Purple icon or Blue icon.

Depending on the casino there are optional payouts:

A bet on the Purple or Blue Bonus icon wins if the same color icon lines up with the winning number and pays 7 to 1 or (optional) pays 8 to 1.

Richer Spin The Cone – Version 5

Paytable Traditional Cone Bonus Bet

Pays	7 to 1	15.7%
or		
Pays (optional)	8 to 1	5.26%
