Roulette Xtra Rules of Play

Roulette Xtra is an exciting new game developed by TCSJOHNHUXLEY that combines the traditional game of Roulette with a thrilling random multiplier bet. With Roulette Xtra, players can win striking payouts of up to 500 to 1 of their original stake, no extra side bet is required. Quick and easy to understand, Roulette Xtra appeals to all enthusiasts of the traditional Roulette game.

Roulette Xtra Overview

Roulette Xtra follows the same rules as traditional Roulette with players predicting the winning number by placing their bets. Standard bets such as inside, outside and neighboring bets may still be played as usual, but are not eligible for the Xtra multipliers.

Once the ball is spun and “No More Bets” is called, the game randomly selects four (4) Roulette Xtra numbers along with random multiplier amounts ranging between 50 to 1 and 500 to 1. The multipliers are allocated to each Roulette Xtra number and displayed on the winning number display. The winning Roulette Xtra number and combinations are determined by the result of where the ball lands on the Roulette wheel. Xtra fun, Xtra excitement, Xtra payouts
