

STADIUM

THREE CARD POKER

Stadium Three Card Poker – Rules of Play

Stadium Three Card Poker is a variation of the well-known table game, using a single deck of cards and the traditional i-Deal Shuffler. Each player will be given the opportunity to pre-select 3 cards from a 9-card array prior to the cards being dealt.

When the betting window has exhausted, the dealer will lay out three packs of cards face up on the layout, and the card locations the player has selected become his traditional Three Card Poker hand. They are then given the option to “Play” the hand for an additional wager, or “Fold” the hand and forfeit their original wager.

Rules of Play

1. The Dealer will begin the betting round by pressing “New Game” on the Dealer Terminal (DT) touchscreen.
2. Each player may select any 3 distinct card locations from the 9-card array on their player terminals.
3. Each player must place an “Ante” wager, along with the optional 6-Card Bonus (6CB) and Pairs Plus (PP) side wagers.
 - a. Players may also blind wager 6CB and PP on each of the columns and rows of the 9-card array.
4. When the countdown timer expires, the i-Deal will present the first 3-card packet for dealing.
 - a. The Dealer will place the packet face up on the “Player Cards” section of the layout, with the bottom card of the face-up packet going in location ‘1’ on the layout. They will then spread the packet from left to right, exposing the cards in location 2 (Middle card of the face-up pack) and location 3 (Top card of the face-up pack)
5. The dealer will then deal the second pack ejected by the i-Deal in a similar manner, this time for locations 4-6.
6. Finally the dealer will deal the third pack ejected by the i-Deal in a similar manner to the first two packs, this time for locations 7-9.

7. The players will now be given a timed opportunity to elect to "Play" or "Fold" their hands.
 - a. Players that do not make a decision in time are defaulted to "Fold", as electing to "Play" would take an additional wager from their credit meter.
8. When all players have made their decisions, the i-Deal will then eject the final 3-card pack. The dealer will open and spread this pack in the designated "Dealer Hand" location on the layout.
9. If the dealer does not qualify by not having a Queen high hand or better, the player's Ante bet is paid 1 to 1 and the Play bet is pushed.
10. The Dealer then presses "Confirm" on the DT Touchscreen and collects the cards from the layout. All pays and takes are done systemically.
11. The 6-Card Bonus wager wins if the player's three cards and the dealer's three cards consist of a three-of-a-kind or better. The Pairs Plus wager wins if the player's three cards consist of a pair or better. (See posted payable for odds.)
