

"STRAIGHT 9's RULES"

"Straight 9's" is an optional side bet for the game of roulette. The rules and paytables are given below:

To begin Play, players will make a wager on at least (1) of (4) "Straight 9's" bets

Side Bet 1 (Bet on 9 numbers 1-9)

Side Bet 2 (Bet on 9 numbers 10-18)

Side Bet 3 (Bet on 9 numbers 19-27)

Side Bet 4 (Bet on 9 numbers 28-36)

After all bets have been made, the game is played following traditional roulette rules and procedures. If the "Straight 9's" is a winner, then the wager will be paid 3 to 1 odds.

The Casino has the option to use payable two, which pays 11 to 1 odds if the player wagered a "Straight 9's" side bet and the winning number is the inside number (5, 14, 23, and 32) of the winning "Straight 9's" wager. Paytable two pays 2 to 1 odds if the winning number is an outside number (remaining eight numbers of the winning "Straight 9's" wager).

Example:

Outside# 2 to 1	Outside # 2 to 1	Outside# 2 to 1
Outside# 2 to 1	Inside # 11 to 1	Outside# 2 to 1
Outside# 2 to 1	Outside# 2 to 1	Outside# 2 to 1

"STRAIGHT 9's"
