INTRODUCTION

Super 4 Poker is a four-card poker game that deals each Player's and Dealer five-cards, making their best four-card poker hand out of five-cards using a standard 52-card deck.

RULES OF PLAY

1. At the beginning of each game, Players must place equal **ANTE** and **X-TRA BONUS** wagers and have the option of placing an optional **PLAYER BONUS** side wager.
2. After all wagers have been placed, five-cards are dealt face down to each Player and to the Dealer.
3. After receiving their cards, Players have the option to place a **PLAY** wager or fold and forfeit their **ANTE** and **X-TRA BONUS** wagers.
 - a. If the Player folds, the **PLAYER BONUS** side wager remains in action and is paid regardless of the Dealer's hand.
 - b. Players will also discard a single card to form the best possible four-card Poker hand.
4. If the Player has at least a pair of Aces or higher, then the **PLAY** wager may be from 1x to 3x times the **ANTE** wager.
 - a. If the Player hand is lower than a pair of Aces, the **PLAY** wager must be exactly equal to the **ANTE** wager.
5. After all wagers have been placed and cards discarded, the Dealer will then make their best possible four-card poker hand out of five-cards by discarding one of their own cards. The Dealer must have at least a King high or better to **qualify**.
 - a. If the Dealer fails to qualify, then the **ANTE** wager will push, and the **PLAY** wager will pay 1 to 1.
 - b. If the Dealer **qualifies**, then the Player's hand will be compared against the Dealer's hand. The order of the hand ranks from highest to lowest is as follows:
 - i. Four of a kind
 - ii. Straight flush
 - iii. Three of a kind
 - iv. Flush
 - v. Straight
 - vi. Two pair
 - vii. Pair
6. If the Player's hand is higher than the Dealer's hand, the **ANTE** and **PLAY** wagers win and are each paid at 1 to 1.
 - a. If the Player's hand is lower than the Dealer's hand, the **ANTE** and **PLAY** wagers lose.
 - b. If the Player's and Dealer hands tie, the **ANTE** and **PLAY** wagers push.
