## **Sweet 16 Rules of Play**

Sweet 16 is an exciting and easy to understand new side bet for Blackjack style games. The game is played on any standard Blackjack table and does not alter the regular rules of Blackjack.

### **Sweet 16 Overview**

To participate, the player places a side bet on the Sweet 16 spot indicated on the table layout, in addition to a regular Blackjack bet. If the first two cards dealt to the player add up to 16, with the amount paid out varying, based on the suits, colors and values of the cards.

The Sweet 16 side bet is finished once the initial two card deal is complete, allowing the player's Blackjack playing strategy to remain unaffected.

### **Game Rules**

1. Before any cards are dealt, the player places a Sweet 16 side bet, in addition to placing a regular Blackjack bet.
2. The Sweet 16 side-bet must not exceed the Blackjack bet and be within the Minimum and Maximum bet limits indicated on each Blackjack table.
3. A Sweet 16 bet wins if the first two cards dealt to the player add up to 16 (see Sweet 16 pay table). The side bet loses if the first two cards dealt to the player do not add up to 16.
4. After each player has been dealt the first two cards, the Dealer will collect all losing wagers and pay out any winning Sweet 16 bets per the pay table.
5. The Dealer will then continue with standard Blackjack game play according to regular procedures.
