Game Description

Three Card Prime is a house-banked, poker-based card game played with a standard 52-card deck. The object of the game is for the player to have a higher ranking three-card poker hand than the dealer. *Three Card Prime* also contains optional bonus wagers that are not dependent on the base game's outcome.

Rules of Play

1. To begin, each player must place an *Ante* wager and may place optional *Prime*, *Pair Bonus*, *All Six*, and/or *Mini-Royal Progressive (Ace, King, Queen)* wagers.
2. Each player and the dealer receive three cards.
3. After the player examines their hand, the player must decide whether to fold, and lose their *Ante* wager, or make a *Play* wager equal to their *Ante*. If the player folds, their hand is still used to determine the outcome of any bonus wagers made.
4. After all players have acted on their hands, the dealer reveals their hand to compare against each player's hand. The dealer qualifies with Queen-high or better.
5. If the dealer qualifies and:
 - The player beats the dealer, the *Ante* and *Play* wagers win and pay 1 to 1.
 - The player ties the dealer, the *Ante* and *Play* wagers push.
 - The player loses to the dealer, the *Ante* and *Play* wagers lose.
6. If the dealer does not qualify, the *Ante* wager wins and pays 1 to 1 and the *Play* wager pushes, regardless of the player's hand.
7. **Regardless of the outcome of the *Ante* and *Play* wagers**, each player (that has placed a *Play* wager) is eligible to receive an *Ante Bonus* pay based on their hand, see Appendix A.

Optional Bonus Wagers

Operators choose which optional bonus wager(s) they will offer and set all minimum and maximum wagering limits.

Pair Bonus

Players win if their three-card hand achieves a winning event as shown on the corresponding paytable in Appendix B.

Appendix A
