

Rules & Procedures

INTRODUCTION

Trifecta is an optional side wager, minimum \$1, that is played with a Blackjack game that uses one, two, four, six or eight standard 52-card decks. Once all wagers have been placed, each player is dealt two cards and the dealer is dealt one card face-up and one card face-down.

If the payable configured includes Dealer Envy, and the player wins the Trifecta side wager, the dealer will also receive an envy pay listed in the payable.

RULES OF PLAY

1. To begin, Players must place a standard Blackjack wager along with an optional **Trifecta** side wager.
2. Players are then dealt the standard two cards; these two cards and the Dealer's up card are combined to form a three-card poker hand. Starting with the **Trifecta** side wager, if the Player qualifies with a hand posted in the payable that is in use, they will be paid according to the posted payable.
3. If Players do not make a three-card poker hand posted in the payable in use, the wager loses. The Dealer will pay or take these wagers after the first two cards have been dealt.
4. After all **Trifecta** side wagers have been settled, the standard Blackjack game continues per house rules.
