

# UPTOWN DOWNTOWN

## Rules of Play

Uptown Downtown is a dice game played with two six-sided dice. To begin, players make at least one of seven available wagers on the following betting areas of the layout:

The **Uptown** wager wins if the sum of the dice rolled is greater than 7. Winning players are paid 6 to 5. If any other sum is rolled, the player's wager is lost.

The **Downtown** wager wins if the sum of the dice rolled is less than 7. Winning players are paid 6 to 5. If any other sum is rolled, the player's wager is lost.

The **Midtown** wager wins if the sum of the dice rolled is equal to 7. If any other sum is rolled, the player's wager is lost.

The **Odd Numbers** wager wins if the sum of the dice rolled is 5, 7, 9, or 11. Winning players are paid 1 to 1. If the sum of the dice is a 3, the Odd Numbers wager is pushed. If any other sum is rolled, the player's wager is lost.

The **Even Numbers** wager wins if the sum of the dice rolled is 4, 6, 8, or 10. Winning players are paid 1 to 1. If the sum of the dice is 2 or 12, the Even Numbers wager is pushed. If any other sum is rolled, the player's wager is lost.

The **Combo Bet #1** wager wins if the sum of the dice rolled is 2 or 12. Winning players are paid 15 to 1. If any other sum is rolled, the player's wager is lost.

The **Combo Bet #2** wager wins if the sum of the dice rolled is 3 or 11. Winning players are paid 7 to 1. If any other sum is rolled, the player's wager is lost.

All wagers are resolved after a single roll of the dice.

Note: Shooter continues to roll dice until wager is lost.

**Seven simple bets!!  
Of course the bettor may make multiple bets on each roll.**

**Good Luck & Enjoy UPTOWN DOWNTOWN**
