

# Wild Six Card Draw Poker

## Rules of Play

Wild Six Card Draw Poker is a house banked poker game played using one standard 52 card deck and two Jokers, which are wild.

To begin, players will place a bet to compete against the dealer. They may also make any of the available optional side wagers: Joker Bet, Queens Plus and/or the Progressive Jackpot. Each player then receives five cards face down and the dealer receives six cards face down.

If the player is dealt a straight or better on his original five cards, the player is an automatic winner and paid even money. If the player does not have a straight or better, the player may discard one card and draw a new card.

The dealer then reveals his hand. The dealer will select five of the six cards to make his best 5-card poker hand.

If the player has a better ranking hand, the dealer will pay the winning hand.  
If the player has a lower ranking hand, the dealer will take the losing wager.  
Tie hands push.

Winning wagers are paid according to the Big Hand Bonus Paytables:

Hand	Paytable A	Paytable B	Paytable C
Natural Royal Flush	50 to 1	50 to 1	50 to 1
Wild Royal Flush	10 to 1	5 to 1	5 to 1
