

Battle 1-2-3 and Bonus Spin Xtreme for Battle 1-2-3 **Rules of Play**

BATTLE 1-2-3

OVERVIEW

Battle 1-2-3 is a house-banked table game played with a shoe containing 6 or 8 standard 52-card decks. Before any cards are dealt, each player must place a mandatory War wager. At this time, players may also place any of the following optional side wagers:

- Player's 3
- Pairs and Trips
- Same Color
- Big Shot (*optional for the operator to offer*)

RULES OF PLAY

The game consists of three rounds of betting, referred to as Battles. Each Battle round follows this sequence:

Battle Wagering

- At the start of each Battle round, players may place an optional Battle wager before any cards are dealt for that round.
- Wager limits per Battle:
 - Battle 1: Up to 1x the War wager
 - Battle 2: Up to 2x the War wager (*after Battle 1 is settled*)
 - Battle 3: Up to 3x the War wager (*after Battle 2 is settled*)

Card Dealing and Resolution

- Each Player and the Dealer receive one card face-up (including players who did not place a Battle wager).
- Battle wagers are resolved as follows:
 - Player's card > Dealer's card: Battle wager wins, pays 1 to 1
 - Player's card < Dealer's card: Battle wager loses
 - Same rank: Battle wager pushes
- Card ranking: Ace (high) down to Two (low).

War Wager Resolution

After all three Battles are complete:

- Compare the three-card totals of Player and Dealer:
 - Aces = 11 points, Face cards = 10 points, others = face value.
- If Player's total > Dealer's total: War wager wins, pays 1 to 1.
- If Dealer's total \geq Player's total: War wager loses.

SIDE WAGERS

Player's 3

- Based on Player's final three-card hand.
- Wins if the hand forms a Flush or better, paid according to the pay table.
- Player does not need to beat the Dealer.

Pairs and Trips

- Based on Player's final three-card hand.
- Wins if the hand forms a Pair or Trips (Three of a Kind).
- Two pay tables may be offered.
- Suited Pair rule: The third card does not need to match the suit of the Pair (e.g., Ace of Spades, Ace of Spades, King of Diamonds qualifies).

Same Color

- Based on Player's three-card hand or combined six-card hand (Player + Dealer).
- Wins if:
 - Player's hand has three same-colored or same-suited cards, or
 - Combined hand has six same-colored or same-suited cards.
- Paid according to the pay table.

Big Shot (*optional*)

- Based on combined six-card hand.
- Wins if the hand contains three cards of the same rank or better, paid per the pay table.
- Example: Player has Ace of Spades, Ace of Spades, King of Diamonds, Dealer has Ace of Clubs, King of Hearts, King of Spades → qualifies for "Two 3 of a Kinds" even though split across hands.

BONUS SPIN XTREME FOR BATTLE 1-2-3

OVERVIEW:

Bonus Spin Xtreme is an optional fixed-amount progressive wager that can be configured for any Battle 1-2-3 variant. The version described here uses a wager of \$1 or \$5 and is played with shoes of 6 or 8 standard decks.

RULES OF PLAY

This single-round wager may be placed at the same time as the player's mandatory War wager. In this configuration:

- The dealer's three-card hand is treated as an independent event within the round.
- At the time of the wager, no information about the dealer's hand is available to the player.
- The dealer's hand is scored by summing card values:
 - Aces = 11 points
 - Face cards = 10 points
 - Others = face value

The base game then proceeds as normal. The Bonus Spin Xtreme wager is resolved when a qualifying trigger event occurs.

Trigger Event

The trigger is based on the outcome of the War wager resolution in the base game:

- If the dealer's final three-card hand totals 12 points or less, the Bonus Spin Xtreme wheels are spun to determine the prize awarded.

Below are the **Battle 1-2-3 paytables**:

Player's 3 Side Wager Paytable
