

Blazing 7's Progressive for Bahama Bonus (Cash Spin) is a fixed amount side bet, progressive wager, that may be configured with Bahama Bonus games using 6 or 8, 48-card decks, which are standard 52-card decks with the 10s cards removed, and a table with a maximum of 7 players.

DEALER PROCEDURES:

The player may place the Progressive wager at the beginning of the game, at the same time as the normal wager. At the discretion of the operator, the Progressive wager may be optional or required. The game is then dealt and played as normal. The Progressive wager is based on the player's two initial cards and the dealer's face-up card. If the player has at least one initial 7, the wager wins and pays according to the payable. If the player has two initial 7s, then the dealer's card is additionally considered to determine the final award. If the player does not have any initial 7s, the wager loses. Certain awards will trigger a spin of a Cash Spin wheel, with the player receiving an award based on the outcome of the spin.

Awards that trigger a spin of a Cash Spin wheel will also award an Envy prize to all other players at the table. These Envy prizes may be configured as fixed pays, or as pays from a separate progressive meter. For the fixed pay configuration, the listed pays are paid to each player except for the player that triggered the prize. For the progressive configuration, the listed percentage of the progressive meter is split between all players except for the player that triggered the prize. The listed fixed Envy pays are for a \$5 wager and must scale proportionally with the wager size.

Note that the player's original wager is not returned regardless of whether the player wins an award. The Cash Spin may award the full contents of a progressive meter, a part of a meter, or a fixed prize.

Note that the fixed prizes are for a \$5 wager and must scale proportionally with the wager size.

For each of the progressives, Ultra and B7, a configured percentage of each wager is used to increment associated primary and reserve meters. In the event of a 100% Progressive award, the primary meter will be reseeded by the contents of the reserve meter. This also applies to the Envy meter, if configured.

Blazing 7s Progressive for Bahama Bonus (Cash Spin) Paytables
