

Heads Up Hold'em Xtreme Rules of Play

INTRODUCTION

Heads Up Hold'em Xtreme is a poker game played with a standard 52-card deck. The object of the game is for the player to have a higher-ranking poker hand than the dealer, using their two pocket cards and the five community cards to form their best 5-card hand. Heads Up Hold'em Xtreme also contains optional bonus wagers.

RULES OF PLAY

To begin each round, players must place equal Ante and Odds wagers and may place any available optional bonus wagers. Once all wagers are placed, each player and the dealer receive two cards face-down (pocket cards), along with five community cards that are also dealt face-down. Each player must now place a Play wager equal to 3x or 4x their Ante wager or check. The dealer then reveals three community cards (Flop). Each player who previously did not place a Play wager must now place a Play wager equal to 2x their Ante wager or check. The dealer then reveals the remaining two community cards (Turn and River). Each player who has not yet placed a Play wager must now place a Play wager equal to 1x their Ante wager or fold and lose their Ante and Odds wagers. The dealer then reveals their two cards, and, using the five community cards, forms their best 5-card hand. The dealer qualifies with a Pair or better. The dealer compares their hand to each player's best 5-card hand.

If the player beats the dealer:

If the dealer qualifies, the Ante wager is paid 1:1. If the dealer does not qualify, the Ante wager is pushed. The Odds wager wins or pushes according to player hand, based on the corresponding payable (Table 1). The Play wager is paid 1:1.

If the player loses to the dealer:

If the dealer qualifies, the Ante wager is lost. If the dealer does not qualify, the Ante wager is pushed. If the player has a Four or a Kind or better and the game is configured with a Bad Beat bonus, then the Odds wager wins and pays according to hand ranking, as listed in paytables shown in (Table 2). Otherwise, the Odds wager loses.

If the player ties the dealer:

The Ante, Odds, and Play wagers are pushed.

Optional Bonus Wagers:

Operators choose which optional bonus wagers they will offer and set all minimum and maximum wagering limits.

Trips Plus:

Players win if their best 5-card hand (using the player's two pocket cards and the five community cards) achieves a winning event. If the player has Three of a Kind or better, the Trips Plus wager wins and pays according to rank as listed in the paytables shown in Tables 3 through 3a, regardless of the player versus dealer outcome. If the player has Two Pair or less, the wager loses.

Pocket Bonus:

Players win if their 2-card hand (pocket cards) achieves a winning event. The Pocket Bonus wager is resolved based on the player's two individual (pocket) cards only. If the cards meet a qualifying scenario based on the configured payable, the wager wins and pays according to hand, as listed in the updated paytables shown in Tables 4a through 4c, regardless of the player versus dealer outcome.

Xtreme Bad Beat:

Players win if both their hand and the dealer's hand are a Three-of-a-Kind or better and are not tied. The Xtreme Bad Beat wager is resolved based on the showdown between the player and dealer hands. If the losing hand in the showdown is a Three-of-a-Kind or better, then the wager wins and pays according to the rank of the losing hand, as given in the paytables shown in Table 5. Otherwise, the wager loses. The Xtreme Bad Beat wager remains in play if the player chooses to fold. Also note that the Xtreme Bad Beat wager loses if the player and dealer hands are tied.

Heads Up Hold'em Progressive:

Players win if their best 5-card hand (using the player's two pocket cards and the five community cards) achieves a winning event as shown on the corresponding paytables below.

Following are the Head's Up Hold'em Xtreme paytables.

Table 1. Pays - Odds Wager, Player Win

Hands	PT-FLT-HUH-01
Royal Flush	500
Straight Flush	50
Four-of-a-Kind	10
Full House	3
Flush	1.5
