

Lucky Rabbits Odd & Even Side Wager for Baccarat

Rules of Play

The deal consists of two cards being dealt to a Player hand and a Banker hand, with a third card potentially dealt to each hand according to normal Baccarat rules. Hands are scored as the right-most digit of the sum of the card values, with face cards worth 10 and number cards worth the card's numeric value. The hand with the higher score wins, or the result is a tie if both hand scores are equal.

LUCKY RABBITS EVEN TIE BET

The Lucky Rabbits Even Tie wager wins and pays out according to Table 1 if the Player and Banker hands tie with even hand values (0, 2, 4, 6, or 8). Otherwise, the wager loses.

LUCKY RABBITS ODD TIE BET

The Lucky Rabbits Odd Tie wager wins and pays out according to Table 1 if the Player and Banker hands tie with odd hand values (1, 3, 5, 7, or 9). Otherwise, the wager loses.

Note: All player wins will trigger the "Dealer Envy" pay where the dealer is paid an amount equal to the player's original wager.

Table 1

Wager	Pay on Win
Lucky Rabbits Even Tie	16 to 1
Lucky Rabbits Odd Tie	16 to 1
