

NEVADA GAMING CONTROL BOARD

REGULATION 6.150 MINIMUM BANKROLL REQUIREMENTS FOR NONRESTRICTED GAMING LICENSEES

GENERAL GUIDANCE

AS OF 11/1/25

In accordance with Regulation 6.150, attached is the bankroll formula worksheet and detailed instructions for completion which are used by the Nevada Gaming Control Board when evaluating compliance with this regulation by nonrestricted licensees. This calculation is not to be used by licensees that only have a nonrestricted slot route operator license or a nonrestricted operator of an inter-casino linked system license and utilize this license for the sole purpose of operating an inter-casino linked system.

1. Instructions have been keyed to the numbered boxes appearing on the formula spreadsheet.
2. For operators of multiple satellite race and sports books, all satellite books should be combined and treated as a single book for purposes of establishing the bankroll requirement.
3. Bankroll requirements for operators of inter-casino linked systems consist of all games or payouts for which the operator is responsible for making payment. The operator is to treat all of its operations as a single entity for bankroll requirement purposes. Any "on hand" requirements are to be met at the main business location of the operator. Although the entire worksheet needs to be completed, special attention needs to be given to the periodic payments section of the worksheet and instructions if payments are made in installments.
4. All licensees must accurately compute the bankroll requirement and available bankroll monthly. Evidence of the monthly computation and supporting documentation must be maintained and be made available for inspection by Board agents for five years following the applicable bankroll computation date. An electronic spreadsheet has been developed for this purpose. Licensees may store completed bankroll spreadsheets and supporting documentation in electronic form provided that the electronic records are indexed in a manner that permits prompt retrieval. Licensees may choose any consistent schedule for performing monthly computations; however, compliance with the bankroll requirements is required at all times. Board Agents may perform bankroll verifications at any time. A deficiency on any date is a violation of Regulation 6.150 requiring immediate notification of the Board, regardless of the timing of the licensee's own verification procedures.
5. Unless otherwise approved by the Chairman or his designee, cash in bank may not be included in the "on-hand" computation.
6. Only funds directly controlled by the licensee may be used to satisfy the bankroll requirement, unless otherwise approved by the Chairman or designee.

7. Instructions for Corporate Treasury Waiver

Licensees who wish to satisfy bankroll requirements for “**next business day**” through the use of corporate funds must request a waiver and obtain prior approval from the Nevada Gaming Control Board. Approval for a corporate treasury waiver will be made on a case-by-case basis. The corporate treasury waiver may **not** be used to satisfy any portion of the “on-hand” requirements.

Types of acceptable treasury funds include:

- Line of Credit;
- Savings account; or
- Checking account – **NO** “sweep” accounts or negative balances will be allowed.

Note: A fixed allocation of the account must be restricted to only be used to satisfy the bankroll requirements.

The request must include:

- Bankroll calculations and supporting documentation for the three most recent months;
- Name of the financial institution;
- Type of fund;
- Term, draw period, and expiration as applicable;
- Total amount allocated to satisfy the bankroll; and
- When the request is to use funds for multiple affiliated locations, include a breakdown of the fixed, allocated amount available to each licensee (amount to be included at Line **12** of the calculation).

This is not a complete list of requirements as additional information may be needed to process the approval. Once approved, the fixed allocation may not be altered without prior Board approval. Additionally, any changes in the fund requires Board approval.
