

24-7 Blackjack

Rules of Play

24-7 Blackjack is a variation to the standard game of Blackjack. The game is played with one, two, four, six or eight standard 52 card decks. 24-7 Blackjack is an optional side wager based on the outcome of the player's first two cards and the dealer's up card.

To begin, players must first wager on the standard game of Blackjack. Aces count as 1 or 11, face cards count as 10, and all other cards count as their face value. If the three cards add to 7 and they are all the same suit, the player wins the top pay and the dealer win a Dealer Envy Bonus that is equal to 10% of the top pay. Winning 24-7 Blackjack wagers are paid as follows:

3-Card Total	Single Deck	Multiple Decks
7 (Suited)	200 to 1	100 to 1
7 (Unsuited)	10 to 1	10 to 1
11	6 to 1	6 to 1
17	4 to 1	4 to 1
24	3 to 1	3 to 1
