

GameAce Live Multi-Baccarat

Game Description

GameAce Live Multi-Baccarat is a table game played with eight standard 52-card decks. At the beginning of the game, before any cards are dealt, players may place one or more of the following wagers: Player, Banker, Tie, Player Pair, Banker Pair, Kirin, Phoenix, Bad Beat Various Pays, Lucky 6, Lucky 8's, Majestic Match, any of the standalone Bad Beat wagers, and any of the STR8 UP bets for either Player Win, Banker Win, or a Tie. The game is then dealt as in normal Baccarat, with the Player and Banker hands being dealt a third card according to normal Baccarat rules.

Main Wager

The Player wager wins if the Player hand ends with more points than the Banker hand and pays out 1 to 1. There are three versions of the Banker wager that can be configured: Commission, Non-Commission, and Dynasty. While the Commission Banker wager is configured, the wager pays out 1 to 1 if the Banker hand ends with more total points than the Player hand, minus a 5% commission fee. While the Non-Commission Banker wager is configured, the wager pays out 1 to 1 if the Banker hand ends with more total points than the Player hand, except if the Banker wins with a point total of 6, in which case the wager is paid out 0.5 to 1. While the Dynasty Banker wager is configured, the wager pays out 1 to 1 if the Banker hand ends with more total points than the Player hand. If the Banker hand wins with a three card point total of seven, this wager is returned. In the event of a tie, all Player and Banker hand wagers are returned. The Tie wager wins if the Player hand ends with the same point value as the Banker hand according to the Tie Pays payout summary.

Player/Banker Pair Wager

The Player Pair and Banker Pair wager wins and pays out if the first two cards dealt to the respective hand have the same rank regardless of suit and pays according to the Player/Banker Pair payout summary.

Kirin Wager

The Kirin wager wins if the Player hand wins with a three card point total of 8 and pays out according to the Kirin payout summary.

Phoenix Wager

The Phoenix wager wins if the Banker hand wins with a three card point total of 7 and pays out according to the Phoenix payout summary.

Bad Beat Super Shot Wager

The player can wager on one or more of the following standalone Bad Beat wagers: The Bad Beat Any 8 Over 7 wager wins if the Player or Banker hand wins with a point total of 8 against a point total of 7 and pays out according to the Bad Beat Super Shot Any 8 Over 7 payout summary. The Bad Beat Natural 9 Over Natural 8 wager wins if the Player or Banker hand wins with a Natural 9 against a Natural 8 and pays out according to the Bad Beat Natural 9 Over Natural 8 payout summary. Note a natural hand win occurs if the indicated point total is dealt on the first two cards in a hand. The Bad Beat Three Card 9 Over Three Card 8 wager wins if the Player or Banker hand wins with a three card 9 against a three card 8 and pays out according to the Bad Beat Three Card 9 Over Three Card 8 payout summary.

Bad Beat Various Pays Wager

The Bad Beat Various Pays wager is resolved based on the final point total of the Player and Banker hands. The wager is paid out according to the Bad Beat Various payout summary and can pay out if the Banker or Player wins.

Lucky 6 Wager

The Lucky 6 wager wins if the Banker hand wins with a point total of 6 and pays out according to the Lucky 6 payout summary.

Lucky 8's Wager

The Lucky 8's wager is resolved based on the total number of Hard 8's and Soft 8's between the Player and Banker hands at the end of the game and pays out according to the Lucky 8's payout summary. Note, the number of Hard 8s is equal to the number of cards with a face value of 8. The number of Soft 8s is equal to the number of hands that end with a point total of 8.

Majestic Match

The Majestic Match wager is resolved based on the first two cards dealt to the Player or Banker hand. This wager can be placed on the Player hand, or Banker hand, or both. The Majestic Match wager pays out if the first two cards dealt to the hand have the same suit according to the Majestic Match payout summary.

STR8-UP Bets

The player can choose to wager on the ending point total of either the Player or the Banker. Additionally, the player can also choose to wager on the end result being a tie. The STR8-UP wager wins if the player successfully predicts the outcome of the game (Player Win/Banker Win/Tie) and also predicts the ending point total of the result and pays according to the STR8 UP Bets Player Hand Win payout summary, STR8-UP Bets Banker Hand Win payout summary, and STR8-UP Bets Tie payout summary.
