

Super Shooter Craps Side Bet with Dealer Envy

Rules of Play

Super Shooter Craps Side Bet With Dealer Envy is a collection of optional wagers for standard Craps games. The wagers are persistent wagers, remaining on the table over multiple dice rolls until they are won or lost. Before any roll, if there are no active Super Shooter Craps Side Bet wagers persisting from previous rolls, players may place an All-side wager, a Little side wager, and/or a Big side wager. The game is then played as normal. The Super Shooter Craps Side Bet wagers remain active over multiple dice rolls, ending when the winning condition is met or when a 7 is rolled.

Little and Big Side Wager

As the dice are rolled, each time a new total is rolled for the first time, it is recorded. If rolls of 2, 3, 4, 5, and 6 are all achieved before a 7 is rolled, the Little wager wins and pays according to the Little/Big Side Paytables. If rolls of 8, 9, 10, 11, and 12 are achieved before a 7 is rolled, the Big side wager wins and pays according to the same payable. If a total of 7 is rolled before the respective winning condition is met, the wager loses. Note that the Little and Big side wagers may also be referred to respectively as the “Small” and “Tall” wagers. A Dealer Envy of 1:1 is paid out to the dealer whenever a Little/Big side wager is won. Note that the Little and Big side wagers may also be referred to respectively as the “Small” and “Tall.” The Little/Big Side Paytables are shown below.

All Side Wager

For the All-side wager, which is similar to Little and Big side wagers, each dice total is observed and recorded. As the dice are rolled, each time a new total is rolled for the first time, it is recorded. If rolls of 2, 3, 4, 5, 6, 8, 9, 10, 11, and 12 are all achieved before a 7 is rolled, the wager wins and pays according to the All Side Paytables. If a total of 7 is rolled before this winning condition is met, the wager loses. A Dealer Envy of 5:1 is paid out to the dealer whenever an All-side wager is won.
