**NOTICE TO LICENSEES**

Notice #2012-47

Issuing Division: Audit

**DATE:** June 13, 2012  
**TO:** All Group I Nonrestricted Licensees  
**FROM:** Mark A. Lipparelli, Chairman   
**SUBJECT:** Update to Industry MICS Variations Table

An "Industry MICS Variations" table listing industry MICS variations granted to Group I licensees was originally posted to the Board's website on July 29, 2009 and was updated on January 25, 2011. For a majority of the granted variations, a Group I licensee may be using a Board-authorized computerized system that does not currently comply with certain MICS. This table is being updated to provide current information on system issues. Additionally, three stand-alone Industry MICS Variations previously granted and posted separately on our website have been removed from our website and are now included in the table. The revised "Industry MICS Variations" table has been posted to the "Industry MICS Variations" of the "Internal Control Information" link on the Board's website at <http://gaming.nv.gov>.

Please be advised that a MICS variation may not apply to a system when the system has been modified to allow for compliance with a certain MICS.

Amendments to the written system of internal control, as needed, should be submitted to the Audit Division (Attn: Kim Wolfgang, if sent to the Las Vegas office or Attn: Adrian Argyris if sent to the Reno office) indicating the applicable MICS variation and revised procedures regarding compliance with the MICS variation procedures indicated in the table.

Please be advised that the Board retains the discretion to revoke and/or modify any MICS variation approval. Due to the ongoing nature of approved systems and their compliance with Version 6 MICS, it is recommended that you periodically check the Board's website at <http://gaming.nv.gov> for new developments and information.

Any questions regarding this matter should be directed to Internal Control Coordinator Kim Wolfgang at (702) 486-2060 or [KWolfgang@gcb.nv.gov](mailto:KWolfgang@gcb.nv.gov).
